

# GOLDFREN Dirt-bike Brake Rotors

## **GOLD** fren Wave Brake Rotors -

Goldfren Wave Rotors are made from a stainless-steel that works very well with all types of brake pads, but particularly well with **Goldfren Brake Pads**. Besides looking really cool, they work extremely well. The constant in and out motion of the wave edge helps to keep pads very clean and sharp. This also helps to keep everything a bit cooler. A further benefit is that mud flings off better.
